

So Kennedy Observation  
15/09/16 - Period 1  
1HLTH

L.I. - Contraceptive methods...  
understand how contraception is a  
personal strategy

### START

- Intro of lesson with a success criteria given verbally.  
↳ Almost all attentive but nobody disruptive

with so many students coming in late due to assembly... how do they know what is going to happen??

→ awesome....  
now written up on the board.

- Video of topic shown which would be interesting to know what students think following - Q & A

What was your reason for showing that particular video?? Purpose etc...

### MAIN

- \* Awesome instructions given and use of visuals to highlight what to do and the time limit for the task.

→ Great idea.

- \* Great movement around the room to check on your more reluctant learners and

also for task completion.

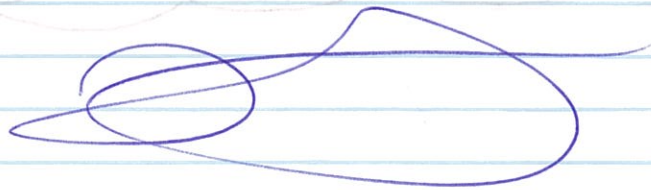

How happy were you with what you observed and student effort??

\* Great use of questioning per group and awesome to see you giving students time to answer etc!!

Also Orewa observation feedback from here onwards.

Overall

You are doing such an awesome job here @ O.C and of course in your first year of teaching. The class are engaged and certainly benefitting from your positive interactions and creativity.

\* Awesome interactions given use of visuals to highlight what to do and the time limit for the task.  
Great job!

\* Great movement around the room to check on your more reluctant learners and

## Interesting

\* The use of the video was great, and it would be awesome for students to feedback on it - Q & A

\* Possibly think about allowing for students to give their prior knowledge in some way (due to sensitivity of topic) before they start, i.e. assumptions!!

\* How have/has your approach changed throughout the year to increase engagement?
